

Lampara Workbooks

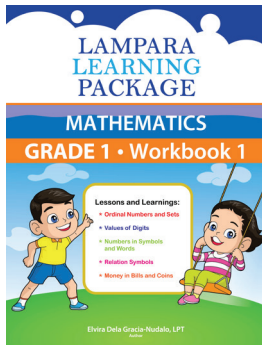

LAMPARA LEARNING PACKAGE is a collection of supplementary books on various school subjects designed to cater to the needs of parents, caregivers, tutors, and young learners for home-based learning—in keeping with the current conditions of the times.

Written by educators who are experts in their respective academic fields, the books are highly recommended as extension learning modules of the school-based education of students, thereby further enhancing and honing their abilities, skills, and knowledge.

Some of the books are written in both Filipino and English. The activities are fully illustrated, which makes learning and problem solving an engaging and enjoyable experience.

The contents of each book correspond to the learnings and activities in the quarterly grading periods prescribed in in-school education. The various lessons are to be tackled on a weekly basis.
